## Village of Baroda Berrien County, Michigan Management's Discussion and Analysis Fiscal Year 2005 – 2006

#### Using this Annual Report

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Village as a whole and present a longer-term view of the Village's finances. Fund financial statements tell how these services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the Village's operations in more detail than the government-wide financial statements.

#### Government Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances, using accounting methods similar to those used by private-sector companies. The Statement of Net Assets and Statement of Activities are designed to be corporate-like in that all the government and business-type activities are consolidated into columns, which add to a total for the Primary Government. These statements should help the reader to answer the questions: Is the Village, as a whole, better off or worse off as a result of this year's activities? The year's revenues and expenses are recognized regardless of when cash is received or paid?

The Statement of Net Assets focus is designed to be similar to the bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates governmental funds' current financial resources, (short-term spendable resources) with capital assets and long-term obligations (total economic resources). This statement presents all of the Village's assets and liabilities, with the difference between the two reported at "net assets." Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating. However, in order to assess the overall health of the Village, non-financial factors such as the Village's property tax base and condition of its infrastructure (water lines, sewer lines and lift stations) may also need to be considered.

The Statement of Activities is focused on both the gross and net cost of the various activities (governmental and business-type activities) that are supported by the Village's property taxes, state revenue sharing, water and sewer user fees, and other revenues. This presentation is intended to summarize and simplify the user's analysis of the cost of the various governmental services and provides information showing how the Village's net assets changed during the recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and

expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes).

Both of the government-wide financial statements distinguish functions of the Village of Baroda that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village include general government, public safety, public works and recreation and culture. The business-type activities of the Village include the water and sewer funds.

Both statements report two activities:

- 1. Governmental Activities Most of the Village's basic services (police, park, government operations) are reported under this category. Taxes and intergovernmental revenue generally fund these services. The Village's governmental activities include legislative, general government, public safety, public works and recreation.
- 2. Business-type Activities The Village charges fees to customers for water and sewer usages to cover all or most of the cost of services provided. The Village operates two business-type activities that reflect private sector type operations: Water and Sewer operating.

#### Fund Financial Statements

Traditional users of the governmental financial statements will find the fund financial statements presentation more familiar. These statements provide more detailed information about the Village's most significant funds (Major Funds), not the Village as a whole. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the Village uses to maintain control over resources that have been segregated for a specific activity or objective. The Village of Baroda, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

State Law requires certain funds be maintained. The Village Council establishes other funds to control and manage money for particular purposes. The Fund Financial Statements allow the demonstration of sources and uses and/or budgetary compliance associated therewith. In addition to major funds, the Village presents individual fund data for nonmajor funds in the supplementary information section.

All of the funds of the Village of Baroda can be divided into two categories: governmental and proprietary funds. Government Funds include the General Fund, and special revenue funds. The Proprietary Funds include the Water and Sewer Operating Funds.

#### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental fund statements are presented on a modified accrual basis, which focuses on the near-term sources and uses of available resources. This is the manner in which the budget is typically developed.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statements of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Most of the Village's basic services are included in governmental funds, which focus on how cash and other financial assets can readily be converted to cash flow in and out, and the balances left at year end that are available for spending. The governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Village's programs.

The Village of Baroda maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general operating fund, and one special revenue fund - Major Street, which is considered a major fund. The data from the other two special revenue funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

#### **Proprietary Funds**

The Village of Baroda maintains one type of proprietary fund – Enterprise Fund. Enterprise funds are used to report the same functions as presented as business-type activities in the government-wide financial statements The Village uses enterprise funds to account for its Water Operating and Sewer Operating Funds. The Village has no internal service funds.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water Operating and Sewer Operating funds and are considered major funds of the Village.

#### Notes to Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### Additional Required Supplementary Information

Following the basic financial statements is additional required supplementary information that further explains and supports the information in the financial statements.

#### Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the Village's case, assets exceeded its liabilities at the end of the fiscal year by \$1,786,318. However, a portion of the Village's net assets (58%) represents its investment in capital assets (e.g. land, buildings, equipment, water and sewer systems). The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

## Governmental Activities Net Assets increased \$36,073. Highlights are listed below:

- Experienced an increase of \$9,936 in Tax Revenues due to increase in Millage
- Experienced a decrease in State Revenue Sharing due to State budget cuts
- Experienced a decrease in Licenses and Permits Revenue from the previous year.
- Experienced a \$10,000 increase in General Government Expenditures
- Experienced an \$1,800 decrease in Public Works Expenditures
- The Treasurer invested funds in a Certificate of Deposit and we experienced a large increase in interest income.

## Business-Type Activities Net Assets increased \$82,813. Highlights are listed below:

- Metered Sales Revenue increased \$9,190 over last year
- Experienced a \$900 decrease in Water Purchased Expenditures, most expenditures remained very close to 2004-2005 expenditures.
- Experienced a \$1,500 decrease in Professional Services Expenditures
- The Non-operating Revenue increased by \$11,500 due to interest earned on Certificates of Deposit.

#### **Enterprise Fund Operations**

The Village's business-type activities consist of the Water and Sewer Funds. We provide water to 99% of the Village and to some of the surrounding Township homes. We purchase our water from the Lake Charter Township Water Department. Sewer service is provided to 98% of the Village and no sewer service is provided to the Township residents.

Work in the Lakeshore Vineyards sub-division has begun and proposes to add an additional 23 houses to the water and sewer systems.

Overall, we saw a decrease of \$5,700 in Water Fund Operating Expenses and an increase of \$3,200 in Operating Revenue. In the Sewer Fund Operating Expenses we saw an increase of \$8,500 and an increase \$8,700 in Sewer Operating Revenue.

As we look at the business-type activities separately from the governmental activities, we see that the business-type activities have over double the net assets of the governmental activities even though the business-type activities have a much larger amount of liabilities. The business-type activities have bonds that need to be paid off. We believe with the proposed housing developments being looked at, that we will see quite an increase in revenue in our business-type activities.

#### Financial Analysis of Governmental Funds

#### **General Fund Highlights**

The General Fund Revenue was down by \$73,000 from the 2004-05 fiscal year. This was due to a decrease in State Revenue Sharing, Non-business licenses and permits, and Interest and Rents. We did not receive a Contribution from our Component Unit this year.

Most of the Village's expenses are paid out of the General Fund. Our Total Expenditures for the year were down by \$109,400 from the 2004-2005 year. Expenses were down in several areas.

Employee Benefits - The Village continues to contribute 6% of the employees' wages to the Pension Plan. Health insurance benefits are paid for the three full-time employees. We have experienced a slight rise in premiums at the end of the fiscal year.

#### **Major Street Highlights**

The Major Street Fund Revenue increased by \$1,000 from the previous year. We experienced a decrease in Act 51 monies received from the State. The Component Unit contributed \$15,000 toward the Lemon Creek Road Project. Expenditures increased by \$24,400 due to the engineering costs for the Lemon Creek Road Project.

The Fund Balance increased \$7,798 for the year. The Major Street Fund Balance at the end of the year was \$99,736 of which \$38,605 is designated for the Lemon Creek Road Project.

#### General Fund Budgetary Highlights

Actual expenses for the year came in at \$49,748 less the budgeted amount and total revenues came in at \$19,884 more than budgeted and can be briefly summarized as follows:

- Total Administrative and Office Expenses came in at \$11,923 less than budgeted (due to lower legal and engineering fees than anticipated).
- Total Buildings and Grounds Expenses came in at \$3,413 less than budgeted.
- Total Public Safety Expenses came in at \$3,822 less than budgeted.
- Total Public Works Expenses came in at \$7,797 less than budgeted.
- Total Community and Economic Development Expenses came in at \$12,610 less than budgeted (due to the Ordinance Book Codification not being completed during the fiscal year this will be completed during the 2006-2007 Fiscal Year).
- Total Recreation and Cultural Expenses came in at \$4,892 less than budgeted (due to fewer park repairs than anticipated).

#### Capital Asset and Debt Administration

#### **Capital Assets**

The Governmental Activities Total Nondepreciable Assets at the Fiscal Year End 2005-2006 was \$146,665. This included current year additions of \$26,395 for construction in progress on the Lemon Creek Road Project.

The Total Capital Assets Other Than Nondepreciable at the Fiscal Year End 2005-2006 was \$222,508. This included current year additions of \$2,455 of land improvements and \$2,789 in new office equipment.

Additional information on capital assets can be found in note 3 of the Financial Statements.

#### **Long Term Debt**

The Sewer Fund has a balance of \$200,000 in bonds and \$34,849 in Interest to be paid to Berrien County. These bonds should be paid off by in 2011.

The Water Fund has a balance of \$130,000 in bonds and \$45,500 in Interest to be paid to Berrien County. These bonds should be paid off by 2019.

#### Investments

The Treasurer has invested \$326,983 in Certificate of Deposits to help grow our funds. Funds with CD's are: Major Street (Lemon Creek), Centennial, Sewer O & M, Sewer Debt, General, and Water O & M. The DDA has \$205,042 invested in Certificate of Deposits.

#### Economic Factors and Next Year's Budgets and Rates

The Village had an Economic Enhancement Study done by Charles Eckenstahler of Public Consulting Team and Wightman & Associates, Inc. To summarize the report, the Village is really early in the growth cycle. Mr. Eckenstahler stated that he believes that everything that is happening with the current economics in the Twin Cities area and in Berrien County, that Baroda is in the position for growth and development in about seven years. In the short-term he doesn't anticipate a lot of housing development in Baroda. The Village Council and DDA are working together to create desirable conditions for economic growth in the Village. They began on several projects this year, but the entire plan will take approximately 10 years to complete.

We expect an increase to our revenue as we develop and sell parcels in the Industrial Park. Tax revenues should increase as the proposed housing developments within the village are built.

#### Contacting the Village's Management

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the Village's finances and to show the Village's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the clerk's office.

#### INDEPENDENT AUDITOR'S REPORT

To the Village Council Village of Baroda Baroda, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Village of Baroda, as of and for the year ended March 31, 2006, which collectively comprise the Village's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Village's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages I through X and 23 through 25, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Village of Baroda's basic financial statements. The combining and individual nonmajor fund financial statements are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The combining nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Right. On time.

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting methods and procedures adopted by Village of Baroda, Michigan, conform to accounting principles generally accepted in the United States of America as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant government accounting policies are described below:

#### A. Reporting Entity

In evaluating how to define the Village's reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles (GAAP). The basic - but not the only - criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations and accountability of fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the Village is able to exercise oversight responsibilities. Based upon the application of these criteria, the following is a brief review of each potential component unit addressed in defining the Village's reporting entity.

**Village of Baroda Downtown Development Authority.** The members of the governing board of the Downtown Development Authority are appointed by the Village of Baroda. The Authority's operational budget, including its tax levy, is subject to the approval or modification by the Village Board. Also, surplus funds existing at termination of the Authority rest with the Village.

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statements of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government of the Village. For the most part, the effect of interfund activities has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services.

The statement of activities demonstrates the degree to which the direct expenses of a function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### C. Measurement Focus, Basis of Accounting, and Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. In the individual fund statements and schedules, the proprietary funds and fiduciary fund financial statements are also reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and compensated absences, and claims and judgments are recorded only when payment is due.

Property taxes, franchise fees, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the Village.

Village of Baroda reports the following major governmental funds:

The **General Fund** is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Major Street Fund** is used to account for the upkeep and maintenance of major streets within the Village.

Village of Baroda reports the following major proprietary funds:

The **Water Operating Fund** accounts for the activities related to the Village's share of the Lake Charter Township's water production, purification, distribution, and billing.

The **Sewer Operating Fund** accounts for the activities related to the operation of the sanitary collections system serving the Village.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Village has elected not to follow subsequent private-sector guidance.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## C. Measurement Focus, Basis of Accounting, and Financial Statements - Continued

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are charges between the Water Fund, Sewer Fund, and other functions and segments. Elimination of these charges would distort the direct costs and program revenues for the functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. All taxes are reported as general taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expense for enterprise funds and internal service funds includes the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first. Unrestricted resources are used as they are needed.

#### D. Budgetary Data

Prior to an annual meeting, the President submits, to the Board of Trustees, a proposed operating budget for the fiscal year commencing April 1. The budget includes proposed expenditures and the means of financing them.

A public hearing is conducted before final adoption by the Board of Trustees.

The budget is formally accepted in summary form at the annual budget meeting.

The Board of Trustees must approve any revisions to the budget whether it is a revision of budgeted amounts between departments within a fund or a revision that alters the total expenditures of any fund.

#### E. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. streets, bridges, and sidewalks), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by Village of Baroda as assets with an initial, individual cost of more than \$500 and an estimated useful life in excess of two years.

All capital assets are valued at historical cost or estimated historical cost if actual cost is not available. Donated capital assets are recorded at estimated fair market value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### E. Capital Assets - Continued

Depreciation of all exhaustible capital assets used is charged as an expense against their operations in government-wide statements and all proprietary financial statements. Accumulated depreciation is reported on government-wide and proprietary statements of net assets. The straight-line depreciation method is applied over the estimated useful life of fixed assets.

The straight-line depreciation method is used for all depreciable capital assets. The estimated useful lives for capital assets are displayed in the table below:

| Asset Class       | Depreciable Life |
|-------------------|------------------|
| Land              | N/A              |
| Buildings         | 25-50 years      |
| Equipment         | 5-15 years       |
| Vehicles          | 7-10 years       |
| Utility Systems   | 10-40 years      |
| Land Improvements | 15-20 years      |
|                   |                  |

#### F. Long-Term Liabilities

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities and business-type activities or proprietary fund type statements of net assets. Bonds premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using straight-line amortization. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Bond discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt received, are reported as debt service.

#### G. Property Taxes

Property taxes are assessed on December 31, and are billed and become a lien on July 1 of the following year. Real property taxes not collected by September 14 of each year are returned delinquent to the Berrien County Treasurer. Berrien County has a revolving fund that purchases the delinquent real taxes and special assessments from the local units in May of each year. Thus, all real property taxes and special assessments are realized within sixty days after the end of the Village's fiscal year and are attributed to that year.

The Village levied 8.6547 mills for general operations and 4.0000 mills for sewer debt retirement in 2005. Taxable value of real and personal property for the 2005 tax levy was \$14,754,163 at the full millage rate and \$2,710,247 of I.F.T. property taxed at fifty percent of the millage rate.

#### H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### I. Restricted Cash

Certain resources in the Village's enterprise funds have been set aside for specific future expenditures and repayments, including monies held for meter deposits, amounts to be used for improvements and amounts to be used for interest expense on bonds payable.

#### J. Cash and Cash Equivalents

The Village considers all highly liquid investments (including restricted assets) with a maturity of one year or less when purchased to be defined as cash equivalents.

#### K. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reporting of certain assets, liabilities, revenues, and expenditures. Actual results may differ from estimated amounts.

#### L. Designated Fund Balances

Certain resources have been contributed to the Village's Major Street Fund for the intended purpose of improvements to Lemon Creek Road. Until these improvements have been completed, a portion of the unrestricted fund balance has been designated for these improvements.

#### M. Restricted and Designated Net Assets

The Village's water and sewer enterprise funds have restricted net assets to account for the cash restricted for bond debt interest. The designated unrestricted net assets are intended for improvements to the water and sewer systems.

#### **NOTE 2 - CASH AND CASH INVESTMENTS**

Cash and Sort-term Investments - The Village is authorized to invest in certificates of deposit, savings accounts and deposit accounts. The Village is also authorized to invest in bonds, securities, and other obligations of the United States, or an agency whose principal and interest is fully guaranteed by the United States. Act 217, PA 1982 states that the Village's deposits, which include cash and certificates of deposit, are carried at cost and must be invested in accounts of federally insured banks, insured credit unions, savings and loan associations and bonds and other direct obligations of the United States. Michigan law prohibits security in the form of collateral, surety bond, or other forms for the deposit of public money. An Attorney General's opinion states that public funds may not be deposited in financial institutions that do not have a branch location in Michigan. The Village's deposits are in accordance with statutory authority at March 31, 2006.

It is the objective of the Village to maintain safety of principal of its funds maintain a diversified portfolio, maintain sufficient liquidity to meet operating requirements, and to obtain a market average rate of return.

#### NOTE 2 - CASH AND CASH INVESTMENTS - Continued

All certificates of deposit with maturities less than one year are classified as cash and cash equivalents.

As of March 31, 2006 the Village's funds were deposited in three institutions meeting the above requirements. At year end the carrying amount of the Village's deposits was \$981,178 and the respective bank balances totaled \$989,488. Of the total bank balance, the Federal Depository Insurance Corporation (FDIC) covered \$300,000.

#### **NOTE 3 - CAPITAL ASSETS**

Capital assets activities for the year ended March 31, 2006 were as follows:

### VILLAGE OF BARODA Notes to Financial Statements March 31, 2006

### NOTE 4 - CHANGES IN LONG-TERM DEBT - Continued

### Schedule of Indebtedness - Bonds Payable (Sewer Fund)

Berrien County Sanitary Sewage Disposal Refunding Bonds were issued by the County of Berrien October 1, 1992, for the purpose of refunding Berrien County Sewage Disposal System No. 18 Bonds (Prior Bonds) and paying the costs of issuing and refunding bonds. The County of Berrien called for redemption, on October 1, 1995, of all outstanding maturities of the Prior Bond.

### NOTE 5 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

During the year, the following transfer was made between funds:

| From General Fund    |                               | _           |        |
|----------------------|-------------------------------|-------------|--------|
| To Police Fund       |                               | \$          | 8,772  |
| To Local Street Fund |                               |             | 17,000 |
| From Police Fund     |                               |             |        |
| To General Fund      |                               | <del></del> | 2,308  |
|                      |                               | _           |        |
|                      | Total Transfers Between Funds | <u>\$</u>   | 28,080 |

Funds were transferred to the Police Fund from the General Fund to cover annual contract payments for police services provided by Lake Township Police Department.

Funds were transferred to the Local Street Fund from the General Fund for operating costs incurred during the year.

Funds were transferred to the General Fund from the Police Fund to close out the Police fund which is not required since there is no dedicated millage. Payments to the township for police services will be paid directly out of the General Fund.

### VILLAGE OF BARODA Notes to Financial Statements March 31, 2006

#### **NOTE 6 - PENSION PLAN**

The Village participates in a 401(k) plan, in which employees can make elective deferrals to the plan, regardless of full or part-time status; however, the Village contributes 6% for those employees considered full-time. Under this plan three employees are considered full-time. The Village's pension cost for the fiscal year ending March 31, 2006, is \$5,315. The current year contribution was based on covered payroll of \$88,577.

### NOTE 7 - SCHEDULE OF BUILDING DEPARTMENT REVENUE AND EXPENDITURES

Public Act 245 of 1999 requires that the legislative bodies of the local government establish reasonable fees which bear a reasonable relationship to the cost of operating the enforcing agency. The Act provides that a separate fund be established to track these costs, unless the local unit's fee structure is not intended to recover the full cost of the enforcing agency and the local unit has the ability to track the full costs and revenues of this activity without creating a separate fund. In that case, the local unit may continue accounting for building department activities within the General Fund. The following is a schedule of building department revenues and expenditures:

| Revenues  Building and mechanical permits      | \$<br>2,873 |
|--|-------------|
| Expenditures Building and mechanical inspector | <br>2,178   |
| Revenues in Excess of Expenditures             | \$<br>695   |

#### **NOTE 8 - RISK MANAGEMENT**

The Village carries insurance for risks of loss, including torts; theft of, damage to, and destruction of assets; error and omissions; workers' compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded insurance coverage in the past fiscal year.

### **NOTE 9 - TRANSACTIONS WITH COMPONENT UNIT**

Transactions between the Village and the Downtown Development Authority (DDA) for the year ended March 31, 2006, consisted of a contribution of \$15,000 from the DDA to the Major Street Fund for the Lemon Creek Road project, and a \$1,133 contribution to the General Fund for costs associated with the construction of a pedestrian bridge in the Village's park.

### **NOTE 10 - EXPENDITURES OVER BUDGET**

P.A. 621 of 1978 Section 18, as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. The approved General Fund budget of the Village was adopted at the department level. During the year ended March 31, 2006, the Village incurred expenditures in certain budgetary functions, which were in excess of the amount appropriated as follows:

|  | ctivity<br>opriation | ctivity<br>enditures | Negative<br>Budget Activity |   |
|--|----------------------|----------------------|-----------------------------|---|
| Major Street Fund - General Government | \$<br>1,600          | \$<br>1,603          | \$                          | 3 |

April 28, 2006

Village Board Village of Baroda Baroda, Michigan

In connection with our audit of the books and records of the Village of Baroda for the year ending March 31, 2006, we offer the following comments and recommendations:

#### **GENERAL**

- 1. The Michigan Department of Treasury Uniform Budget Manual requires the Village to pass a general appropriations act for the general fund and each special revenue fund. The general appropriations act must state the total mills to be levied and the purpose for each millage levied, include an estimate of expected beginning surplus or deficit, estimate of required expenditures, estimate of revenues (by revenue source), estimate of amounts needed for deficiency, estimate for contingent or emergency purposes, and an estimate of expected ending surplus or deficit.
- 2. To help strengthen internal controls, invoices should accompany checks when presented for second signature.
- 3. All invoices should be approved by Council prior to disbursement of funds.

We appreciate the cooperation and courtesy extended to us by the officials and employees of the Village of Baroda and trust that these comments and recommendations will be accepted in the spirit of cooperation in which they are intended.

Very truly yours,

GÉRBEL & COMPANY, P.C.
